The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2627

DETAILED ACTION

Claims 6.11, and 14 have been canceled.

Claims 1-5,7-10,12-13, and 15 are currently pending.

Response to Arguments

Applicant's arguments with respect to claims 1-15 have been considered but are most in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5,7-10,12-13, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Mitui et al (hereafter Mitui) (US 6,937,553).

Regarding claims 1,7,12, and 15, Mitui discloses a reproducing apparatus which reproduces information recorded on a recording medium, comprising a pickup which reads information including recording medium identity information, a first content, and a second content recorded on the recording medium (optical head, Column 6, lines 23-24), a reproducing signal processing circuit which reproduces the information read by the pickup (signal processing unit, reproducing medium ID information, Column 8, lines

Art Unit: 2627

41-50), a memory which stores a plurality of recording medium identity information sets which have ever been processed by the reproducing signal processing circuit (Column 6, lines 7 and 12-14), and a controller which controls the reproducing apparatus (Column 8, lines 66-67), wherein said controller permits reproducing of the second content when the recording medium identify information stored in the memory satisfies a predetermined requirement (copy attribute, Column 6, lines 44-49, and Column 8, lines 28-38), and wherein the first content can be reproduced whether or not the recording medium identify information satisfies the predetermined requirement (Column 9, lines 4-15).

Regarding claim 2, Mitui discloses wherein said memory is detachable (flash memory card, Column 16, lines 27-31).

Regarding claim 3 and 8, Mitui discloses a program required for said processing is obtained from said recording medium (Column 16, lines 9-17).

Regarding claims 4 and 9, Mitui discloses said controller can obtain information from an external device via a network and a program required for said decision processing is obtained from the external device via the network (Column 11, lines 47-52, see public network 92 and communication adapter 93 in Figure 4).

Regarding claims 5,10, and 13 Mitui discloses wherein said predetermined requirement includes a number of said recording medium identify information sets, stored in said memory, that are required to reproduce said second content (copy attributes Column 8, lines 28-40 and Column 6, lines 50-59).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Oshima (US 5,699,331) discloses an apparatus operating with recording medium according to positional information of a secret code. Ishibashi et al (US 6,522,607) disclose a recording device and method to prevent unwanted use of information. Oshima et al (US 5,805,551) disclose a method and apparatus for preventing illegal copy or illegal installation of information of optical recording medium. Takagi (US 5,652,741) disclose a data storage apparatus having data and parity media. Fujinami et al (US 6,385,152) disclose a recording apparatus including write protect level determining procedure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Application/Control Number: 10/702,548

Art Unit: 2627

the advisory action. In no event, however, will the statutory period for reply expire later

Page 5

than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas D. Alunkal whose telephone number is (571)270-1127. The examiner can normally be reached on M-F 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wayne Young can be reached on (571)272-7582. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
